BEAUTIFUL AND TRUE.—In a late article in Fraser's Magazine this brief but beautiful passage occurs:—"Education does not commence with the alphabet. It begins with a mother's look—with a fathers smile of approbation, or sign of reproof—with a sister's gentle pressure of the hand, or a brother's noble act of forbear-ance—with handful of flowers in green and daisy meadows—with bird's nests admired, but not touched—with creeping ante, and almost imperceptible enumers—with humming bees and glass beckives—with pleasant walks in shady lanes, and with thoughts directed in sweet and kindly tones, and words to manure to acts of benevolence, to deeds of virtue, and to the source of all good, to God himself."

DISCONTINUANCE OF THE LAND OFFICE AT IOWA CITY.—Notice is given that in pursuance of law, and in view of the report of the register and receiver of Iowa City, that the vacant land in that district is reduced below one hundred thousand acres, the Sceretary of the Interior has directed that said land office be discontinued, and the lands remaining unsold at the time of discontinuance be made subject to sale and energy at Fort Des Moines, that State.

A RECEIPT.—A gentleman sends us a note, saying, "My wife wants you to publish the best method of doing up shirt bosoms." Our recipe is—Hold the baby five minutes while your wife drives that dratted cat out of the buttery. If your shirt bosom is not done up by that time, you need no further instruction from us on the line of "starching made easy."—Buff Rep.

The present Chicago, St. Paul and Fond du Lac Railroad Company purchased out that road and assumed its habilities. By a contract now existing between the latter Company and the City of Janesville, they are to pay the interest upon the bonds of the city of Janesville, whatever they may be had. They have failed to do so, and the reputation and credit of the city of Janesville is suffering in consequence of their neglect. Have the same target on the Haliau name

High duties, it is said, are placed on Priedmontese productions, and passpot is are with difficulty obtained by Austrian subjects, and noedlessly sentinized when a Sardinian would cross the frontier. The discontent which prevails in the Austro-Italian States is next noticed, and declared to be the effect of an oppressive government. For all these wounds brightness its recties.

She passed the Straits without any difficulty, except the loss of two or three buckets from one of her wheels. Off the Fores large fields of floating ice were encountered, but it was very rotten and the steamer plowed her way through it gallanty. Mr. Nortis says the reports at Machinaw from St. Mary's River were of encouraging. Boats had been over from the Labische which report that the ice would not be out under a week or ten days. The Superior would start, however, at 2 P. M., and Mr. Norris had hopes of reaching the Saut by Tuesday of this week. A HUMAN LIFE SAVED. Downglac, Mich., March 11,1856.

J. A. RHODES, Esq.:—Dear Bir :—As I took your medi cine on consignment, "no cure, no pay," I take pleasure in stating its effects as reported to me by three brothers who live in this place, and their testimony is a fair specimen of all I have received:

W. S. Covalus told me—"I had taken nine bottles o

Ohristle's Agua Balsam, and continually run down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and howels, so that all thought it impossible for me to live through another chill. The doctors, too, did all they could for me, but thought I must dies. Nothing did me any good until I out Bhades' Fever and Arms Core, which at once reliev n a short time."

H. M. Conzun says:—"I had been taking medicine of

as good a doctor as we have in our county, and taken any antity of quintne and specifics without any good result from 25th August to 17th Decamber. But so ly it operated on my brother, I got a bottle of PEVER AND AGUE CURE, which affected a permanen ure by using two thirds of a bottle."

8. M. Convein was not here, but both the other brothers sy his case was the same as H, M.'s. I sold the medicine

o both the same day, and the cure was as speedy for eame small quantity, and I might so specify. Yours with respect, A. HURTINGTON.
The above speaks for itself. Good proof as it is, it is o batter tenor than the vast number of like certificates I are already published, and the still greater amount that continuatly pouring in to me.

One thing more. Last year I had occasion to cauti

he public in these words : the public to these words:

"I motice one firm who have taken one of my general
circulars, substituted the name of their nostrum for my
medicine, and then with braven impulsors and their
gamphits with the exclamation, it is the proprietors of
any other medicine say as much if he dare, 'do. Now I take pleasure in saying that the Caution referred o the same "Dr. Christie's Ague Balsam" that is mention-

d in the above certificate. There are several other industrious people who are applying to their poisonous trash all that I publish about my Fever and Ague Cure, or Authore to Maiarla, except the Certificates of Cures, and the certificate of the celebrated Chemist, Dr. James R. Chitton, of N. Y., in favor of its HARMLESS CHARACTER, which is attached to every bottie. These will always serve to distinguish my medicin from imitations. JAS. A. RHODES, Proprietor,
